## As You're Filling Out This Form, Please Remember To:

- Complete Sections 1 through 4. For Corporate accounts, you must complete Section 5 as well.
- See Section 6 for instructions on returning your completed form. (You do not need to return the disclosures that follow this form.)
- Have all account holders, agents or attorneys-in-fact, trustees, and/or authorised agents complete and sign this form (print additional copies of pages 2, 3, 4, 5, and 6 as needed).
- Complete a separate application for each account.
- Attach your account application and any other new account documents for new accounts.

## 1 Tell Us About Your Schwab Singapore Account (Required)

For new accounts, leave this field blank. >  Account Number  Trust/Corporate Account Name (if applicable)

## 2 Select Your Investment Strategy

Margin  
Check this box if you would like to add margin without adding options trading. >  Add margin to my account (subject to approval). Note: Nonprofit organisation accounts are not eligible for margin.\*

### Options Trading

Select the strategy level below that best fits your investment objectives. If you do not qualify for the strategy level you request, you may be approved for the highest level that is appropriate for your account type,<sup>†</sup> experience, knowledge and financial situation. If your account is approved for options trading, each account holder, agent or attorney-in-fact, trustee, and/or authorised agent on the account will be able to engage in options trading.

Please select only one strategy level.

**Covered Options and Cash-Secured Equity Puts (Level 0).** Capital Preservation, Income, and Investment Hedge. Strategy level includes covered calls, covered puts, buy-writes, unwinds, covered rollouts, protective puts, and cash-secured equity puts.

Add margin (subject to approval).

**Purchasing Options (Level 1).** Growth, Speculation, and Income. Strategy level includes all of the above, plus long calls, long puts, long straddles, long combinations, and long strangles.

Add margin (subject to approval).

Margin is required.\* >  **Spread Trading (Level 2).** Speculation and Income. Strategy level includes all of the above, plus vertical spreads, calendar spreads, diagonal spreads, condors, butterflies, box spreads, and ratio spreads (long side heavy).

Margin is required. >  **Uncovered Options Writing (Level 3).** Speculation and Income. Strategy level includes all of the above, plus uncovered calls, uncovered puts, uncovered rollouts, short straddles, short combinations, short strangles, and uncovered ratio spreads.

\*Securities regulations require that options spreads occur in a margin account.

†Covered Options is the only strategy level permitted in non-incorporated association accounts.

### FOR CHARLES SCHWAB USE ONLY

- Covered Options and Cash-Secured Equity Puts (Level 0)
- Purchasing Options (Level 1)
- Spread Trading (Level 2)
- Uncovered Options Writing (Level 3)

Are you affiliated with or employed by a stock exchange or member firm of an exchange or FINRA, or a municipal securities broker-dealer?

- Yes
- No

You must answer this question, as we are required by industry regulations to determine if you or someone in your household is associated with a financial services company such as a broker-dealer. If you answer yes, you must attach a letter from your employer approving your request to establish a Schwab Singapore account.

3. Tell Us About Yourself (continued)

You must provide specific information below.

Trust/Corporate account information should be based on Trust/Corporate assets.

Your Annual Income is consistent annual income or estimated annual income from all sources such as wages, distributions, social security, and pensions. Your liquid net worth is the part of your net worth that can be easily turned into cash. Liquid net worth includes investments like stocks and mutual funds but not assets like real estate. Your total net worth will include your liquid net worth.

If you have no trading knowledge or experience, please check "None."

Acceptance of Agreements, Certification of Trust, and Signature(s)

Please read and sign on pages 5 and 6.

Acceptance of Margin Application Agreement

If you have selected to add margin to your account, you are applying for authorisation to borrow money from Schwab Singapore using your assets as collateral. By signing the Add Options Trading and Margin to Your Schwab Singapore Account application (the "Application"), you acknowledge that you have received and read a copy of the *Margin Disclosure Statement*. You further agree that you have received, read, and agreed to be bound by the Margin Application Agreement in effect and as amended from time to time. The Margin Application Agreement contains two important sections: (1) Disclosure of Credit Terms and Policies and (2) Margin and Short Account Agreement Terms and Conditions. Finally, you agree that you have received, read, and agreed to be bound by the Schwab One® Singapore Account Agreement, as amended from time to time.

Please note that if you have a Power of Attorney (POA) on your account, your agent or attorney-in-fact will have access to your margin account.

Acceptance of Options Application Agreement

If you have selected to add options trading to your account, you are applying for authorisation to trade options. By applying for authorisation to trade options and signing this Application, you agree that you have received, read, and agreed to be bound by the Options Application Agreement in effect and as amended from time to time. The Options Application Agreement contains two important sections: (1) Option Trading Rules and (2) Option Agreement. You also acknowledge that you have received, read, and agreed to be bound by the Schwab One Singapore Account Agreement, as amended from time to time.

You represent that you are aware of the inherent risks of options trading and that you are financially able to bear such risks and withstand options trading losses, including the loss of your entire investment. You understand that Schwab Singapore may periodically request new financial information and review your authorisation to trade options.

The booklet "Characteristics and Risks of Standardized Options" will be sent to you when your account is approved for options trading. You agree to read the booklet prior to conducting any trades in your account. You understand that your account will be handled in accordance with the rules of the Options Clearing Corporation and the applicable exchange and/or regulatory agencies, and you agree to conduct activity in your account in accordance with such rules.

Certification of Trust

By signing this Application on behalf of a Trust, each trustee signing below (the "Trustee[s]") certifies that the representations and warranties in the attached Certification of Trust are true and complete.

**Holders of accounts with the margin feature further acknowledge that securities securing loans from Schwab Singapore may be lent to Schwab Singapore and lent by Schwab Singapore to others. I/we agree to the above terms and conditions:**

**Next Steps**

Did you remember to:

- Print copies of pages 2, 3, 4, 5, and 6 as needed for additional account holders, agents or attorneys-in-fact, trustees, and/or authorised agents?
- Complete a separate application for each account?
- Attach your account application and any other new account documents for new accounts?
- Complete Section 5 for Corporate accounts?

Return instructions > Please return pages 1–6 by:

- Bringing them to Charles Schwab Singapore.
- Faxing them to (+65) 6536-1151 or +1-415-956-3212.
- Uploading them online:
  1. Go to [www.schwab.com.sg](http://www.schwab.com.sg).
  2. Log in to your account.
  3. Click the Message Center link (under Accounts), and then click the Compose New Message link.
  4. Upload your form as an attachment by clicking the Add File button.
  5. When your message is complete, click Send.

▪ Mailing them to either of the following addresses:

**Regular Mail**  
 Charles Schwab Singapore Pte. Ltd.  
 1 George Street  
 #07-01A  
 Singapore 049145

**Overnight Mail**  
 Charles Schwab & Co., Inc.  
 Attn: IS Document Control  
 1945 Northwestern Drive  
 El Paso, TX 79912-1108, USA

If you are opening a new account, you will need to submit this form with your other new account materials. Please confirm whether each of your forms can be sent via fax or uploaded online because not all forms are accepted using these methods. Adding features (such as options trading) to a new account may take longer than adding them to an existing account.

## OPTION TRADING RULES

**Calls.**

1. Underlying stock for listed calls may have contracts written against it in multiples of one call option contract per hundred shares, unless otherwise specified.
2. Securities purchased for covered call writing must be paid for by the standard two-day settlement date. Proceeds from the option will be credited to the investor's account, unless otherwise specified.
3. All underlying securities not already held in an account at Schwab Singapore must be delivered FREE AND IN GOOD DELIVERABLE FORM before covered calls may be written.
4. Covered call writing may be done against marginable securities held in an account, provided the account is in compliance with the Federal Reserve Board's Regulation "T" and Schwab Singapore's Margin and Short Account Rules.
5. Convertible or exchangeable securities may, in some cases, be available for covered call writing, at Schwab Singapore's discretion. Contact your Investment Advisor or Schwab Singapore for specific information.

**Puts.**

1. A short put is considered covered when a put is written against stock sold short. Listed puts may be written against the underlying short stock in multiples of one put contract per hundred shares, unless otherwise specified.
2. A put is also covered when there is sufficient cash to cover the stock purchase if the put is assigned.
3. No additional margin will be required if a put is written against stock sold short if the margin requirements are met on the short stock.

**Qualified Spreads.** A "spread" involves being both the buyer and writer of the same type of options (puts or calls) on the same underlying interest, with the options having different exercise prices and/or expiration dates.

The purchased option is required to expire on the same or later expiration date than the option sold. When there is more than one possible way to pair available options in your Account, Schwab Singapore has the discretion to determine spread pairings. Schwab Singapore may pair options in a manner that does not produce the lowest possible margin requirements.

**Straddles and Combination.** A "straddle" is an equal number of calls and puts purchased (or written) on the same security with the same strike price and same expiration. If the strike prices and/or the expiration differ, the order or position is defined as a "combination."

**Writing Uncovered Options.** Before placing an order to sell uncovered options on equities and narrow-based indexes, \$25,000 in equity must be on deposit, and before placing an order to sell uncovered options on broad-based indexes, \$25,000 in equity must be on deposit in your Schwab Singapore Account. In calculating equity, the market value of any security, bond, or stock may be included, and any existing debit balance must be subtracted. Premiums obtained from option writing will be applied against Schwab Singapore's equity requirements. The total equity requirement must be in the Account prior to entering the order. Funds in your money market portfolio or Schwab One® Singapore Account qualify as money in your brokerage account and are considered good equity. In addition, if you write an uncovered call option contract and are allocated an exercise of the option, you may be required to borrow shares in order to satisfy the delivery requirement of the option contract. In that event, you will be treated as if you had sold the shares short and may be subject to margin fees and stock loan fees.

**Payment and Settlement.** Unless the amount required for an option trade is met by one of the following methods, we may, at our discretion, decline to accept your order.

1. Cleared funds in Account;
2. Funds in our between-investment money market funds;
3. Making the trade versus executed market sell orders, or on the margin loan value of securities held in your Account in an adequate amount.

Funds may be wired to:

**U.S. Dollar Instructions**

Destination Bank: Citibank N.A., 111 Wall Street, New York, NY 10005

FBO Account Number: 864325009

Funds in your Schwab One® Singapore Account qualify as "money in your Schwab Singapore Account" for purposes of entering or opening an option transaction. Deposits, interest distributions, withdrawals, and payments for option trades (if sufficient funds are available) are all calculated automatically if you participate in our Schwab One Singapore Account.

**Option Contract Assignments.** Short option contract assignments will be allocated among position holders on an automated random selection basis.

**OCC Disclosure Document.** Before trading options, read the booklet "Characteristics and Risks of Standardized Options" (the "OCC Disclosure Document"). A copy will be sent when your Account is approved for option trading.

**Manipulation of Auto-Execution Prohibited.** Most options exchanges have automated execution (Auto-ex) systems that provide rapid executions for retail-size market and marketable limit orders in listed options at the quoted bid or offer, up to a maximum number of contracts. This maximum number varies by options class and generally ranges between 20 and 100 contracts per order. Exchange rules prohibit investors from engaging in "order splitting," i.e., dividing a large order that is ineligible for Auto-ex because of its size into two or more smaller orders to make them eligible for Auto-ex treatment. Orders placed within less than 15 seconds of each other will be aggregated for purposes of evaluating whether impermissible order splitting has occurred. For example, if the option ABCDE had a maximum Auto-ex size of 50 contracts, it would be impermissible to divide a 100-contract order and enter two 50-contract orders contemporaneously for the purpose of receiving Auto-ex treatment. Orders of this type should be entered either for the full, undivided amount or more than 15 seconds apart. Depending on the facts and circumstances, multiple orders placed more than 15 seconds apart may still be evaluated for order splitting if submitted for the purpose of obtaining Auto-ex treatment. SEC and Exchange rules regarding market manipulation and Auto-ex systems also prohibit investors from submitting orders into the limit-order book of an options exchange for the purpose of influencing the prices at which subsequent Auto-ex orders could be executed. (Typically, this is a limit order that improves the Exchange's quoted market.) For example, it may be manipulative for an investor to enter a limit order to buy a small number of options contracts at a price above the prevailing inside bid, and enter a contemporaneous Auto-ex order to sell a larger number of those options (which could be executed at the new, higher bid price set by the investor's own limit order). The order-splitting and manipulation prohibitions apply even when the orders are coming from multiple accounts if these accounts have a common beneficial owner. The prohibitions may also apply to orders in separate options series if these series are substantially similar. Violation of antimanipulation laws and Exchange Auto-ex rules could result in the imposition of criminal penalties, fines, and other sanctions against you by regulatory agencies; the reversal of trades executed in violation of Exchange rules; and/or the removal of options trading privileges or closing of your Schwab Singapore Account(s).

## Option Trading Rules (continued)

## Option Equity Requirements\*

Underlying Securities	Long Purchase	Uncovered	Spread <sup>†</sup>	Short Straddle
Equities & Narrow-Based Indexes	100% of cost, cash-up-front	20% of the underlying security's market value, minus any out-of-the-money amount, plus the current option premium (marked to the market). <b>Minimum:</b> The greater of \$25,000 equity, or the option premium plus 10% of the underlying security's market value (option premium plus 10% of the strike price for puts), or \$100 per contract.	100% of the long contract premium, plus: <b>Call Spread</b> —The value of the difference between the strike prices, if the exercise price of the long contract is greater than the exercise of the short contract. Minimum: \$2,000 <b>Put Spread</b> —The value of the difference between the strike prices, if the exercise price of the short contract is greater than the exercise of the long contract. Minimum: \$2,000	The greater of the two uncovered contract requirements, plus the current option premium of the other contract (marked to the market). <b>Minimum:</b> \$25,000.
Broad-Based Indexes		15% of the underlying index, minus any out-of-the-money amount, plus the current option premium (marked to the market). <b>Minimum:</b> The greater of \$25,000 equity, or the option premium plus 10% of the underlying security's market value (option premium plus 10% of the strike price for puts), or \$100 per contract.		

\*Subject to change at any time by Schwab Singapore. To protect itself, Schwab Singapore may, at its discretion and without prior notice to you, revalue securities, reset requirements, or adjust the inflated SMA (Special Memorandum Account) at any time.

<sup>†</sup>Schwab Singapore retains complete discretion to determine how to pair options that may constitute a qualified spread. See "Qualified Spreads."

## OPTION AGREEMENT

**Terms and Conditions.** In consideration of our accepting your orders to trade option contracts for your Account referenced in Section 1 of the Add Options Trading and Margin to Your Account application ("Account"), you agree that the following terms and conditions apply to your Account, in addition to the other terms and conditions contained in the Schwab One<sup>®</sup> Singapore Account Agreement applicable to your Account.

**1. Risks of Option Trading.** The purchase or writing of option contracts involves a high degree of risk and is not suitable for all investors.

By applying to add the option trading feature to your Account, you represent that you:

- Understand the risks inherent in option trading;
- Are financially able to withstand option trading losses, including the loss of your entire investment; **and**
- Have determined that option trading is suitable for you, considering your financial situation and investment objectives.
- Neither Schwab Singapore nor its officers, employees, or agents are authorised to give tax advice. You should consult a professional tax advisor regarding the tax effect of option transactions in your Account.

**2. Special Statement for Uncovered Option Writers.** There are special risks associated with uncovered option writing that expose the investor to potentially significant loss. Therefore, this type of strategy may not be suitable for all investors approved for options transactions.

- Potential loss of uncovered call writing is unlimited. The writer of an uncovered call is in an extremely risky position and may incur large losses if the value of the underlying instrument increases above the exercise price.
- As with writing uncovered calls, the risk of writing uncovered put options is substantial. The writer of an uncovered put option may incur large losses if the value of the underlying instrument declines below the exercise price.
- Uncovered option writing is thus suitable only for the knowledgeable investor who understands the risks, has the financial capacity and willingness to incur potentially substantial losses, and has sufficient liquid assets to meet applicable margin requirements. In this regard, if the value of the underlying instrument moves against an uncovered writer, we may request significant additional margin payments. If you do not make such margin payments, we may liquidate stock or options positions in your Account, at our discretion without prior notice, in accordance with your margin agreement.

- For combination writing, where the investor writes both a put and a call on the same underlying instrument, the potential risk is unlimited.
- If a secondary market in options were to become unavailable, investors could not engage in closing transactions, and an option writer would remain obligated until expiration or option contract assignment.
- The writer of an American-style option is subject to being assigned at any time until the option expires. By contrast, the writer of a European-style option is subject to option contract assignment only at expiration.

**NOTE:** It is expected that you will read the booklet entitled "Characteristics and Risks of Standardized Options." Direct your attention to the chapter entitled "Risks of Option Writers." This Statement is not intended to enumerate all of the risks entailed in writing uncovered options.

**3. OCC Disclosure Document.** When we approve your Account for option trading, we will give you the booklet "Characteristics and Risks of Standardized Options," published by the Options Clearing Corporation (the "OCC Disclosure Document"). You agree not to enter any orders for option transactions until you have read and understood the OCC Disclosure Document. Any information contained in the OCC Disclosure Document, including information regarding the federal income tax consequences of option transactions, is subject to change.

**4. Importance of Accuracy on Your Application.** You represent that the information you've provided on the Add Options Trading and Margin to Your Account application is accurate. You agree to notify Schwab Singapore if there are important changes in the investment objectives or financial situation you have described in your application.

**5. Provision of Services.** When we approve your Account for option trading, we will act as your broker to purchase, sell, assign, transfer, exercise, endorse, clear, or otherwise handle puts, calls, and other contracts relating to securities, securities-related indexes, and other underlying instruments. You agree that if you place orders for option trading in more than one market, we may use our discretion in selecting the market in which to enter your order in the absence of specific instructions from you. **We may, at our discretion and without notice, restrict or prohibit option trading or certain types of option transactions or specific option transactions in your Account.**

**6. Payment.** Option transactions are settled on the first business day after the day your order is executed. We may decline to accept your order to purchase option contracts if there are not sufficient cleared funds (that is, funds on which no holds or other restrictions are imposed) available in your Account to pay the purchase price, if you do not have sufficient equity in your Account to meet applicable margin requirements, or for other reasons subject to our discretion. In all cases, option transactions must be settled on the first business day after the day your order is executed, and it is your responsibility to deposit necessary funds and maintain sufficient equity in the Account.

**7. Covered Option Transactions.** If you are approved for covered options and cash-secured equity put transactions only, you may sell call (put) option contracts when you hold in your Account a sufficient long (short) position in the securities underlying the contracts; purchase call (put) option contracts when you hold in your Account a sufficient short (long) position in the securities underlying the contracts; or, sell put option contracts when you hold cash in your Account equal to the aggregate exercise value of the put contracts sold.

**8. Maintenance of Required Equity and Liquidation.** If you write option contracts, you agree to maintain equity collateral in your Account in accordance with the terms of the Account Agreement. If you do not maintain enough equity in your Account to secure your option obligations adequately, or if you do not satisfy, in a timely manner, any money or collateral call (relating to settlement of a trade or otherwise), we may (but are not required to), without prior notice, take any action with respect to and for your Account that we, in the reasonable exercise of our discretion, consider necessary for our protection.

These actions may include:

- Buying or selling short;
- Hedging existing security positions;
- Risking any or all securities underlying options purchased, endorsed, or handled for your Account; **and/or**
- Buying or selling for your Account any option contract we consider necessary or appropriate. Our failure to take any of these actions in any particular instance will not be considered a waiver of our right to take such actions in later instances. You agree to reimburse us for all expenses, fees, commissions, or losses (including taxes and transfer and other fees) we incur as a result of such actions.

**9. Short Option Positions.** If you write a call option contract, you agree to honour all option contract assignments by delivering to us the underlying securities in negotiable form or cash (in the case of index options) at the times prescribed by the securities exchanges and/or the Financial Industry Regulatory Authority. In the event that the call option is uncovered, we will attempt to borrow the securities on your behalf. If we borrow the securities, you agree to pay any fees imposed by us for lending you the securities. If we cannot borrow securities, we may act as your agent to buy in such securities at the current market price and deliver these securities or cash to fulfill your delivery commitment. We may exercise our discretion regarding the timing and manner of any such purchases. In case the following situations occur:

- You write a call option contract in a security that becomes subject to a reorganisation transaction (such as a tender offer or other offer in which value is offered in exchange for or with respect to ownership of such security); **and**
- You are assigned an exercise notice on such contract; **and**
- You are unable to cover your obligation to deliver, either through delivery of the security to us, our borrowing the security on your behalf, or our buying in the position; **then**
- You agree to pay us the losses that we sustain as a result of your failure to deliver. If you write a put option contract, you agree to honour all option contract assignments in a timely manner. You agree to pay all expenses, fees, commissions, and/or losses (including taxes) incurred as a result of the transactions described above.

In addition, at our discretion, we will pair options positions in the Account that constitute a spread position. You agree to accept the matching logic employed by Schwab Singapore to determine spread pairings, and you agree to maintain sufficient equity in your Account to meet the equity requirements that may result from such pairings as determined by Schwab Singapore in its discretion.

**10. Exercises.** If you exercise a long option contract, you agree to pay the full aggregate exercise price provided for by the option contract.

We'll accept exercise instructions for same-day execution on business days prior to 4:00 p.m. Eastern time for index option contracts, and prior to 5:00 p.m. Eastern time for equity option contracts. We will accept exercise instructions until 5:00 p.m. Eastern time on the last trading day of expiring options. The exercise of a put option is considered a short sale unless you have the underlying securities in your Account. You acknowledge that the Options Clearing Corporation (OCC) and the national securities exchanges have established cutoff times for delivering exercise instructions. Your long option contracts may expire worthless if you do not deliver your instructions by the expiration time noted in the OCC Disclosure Document. We are not obligated to give you prior notice of option expiration dates, and you will have sole responsibility for taking action to exercise an option contract before the option expires.

However, if you hold in your Account long equity option contracts that are greater than or equal to \$0.01 in-the-money, and we do not receive exercise instructions from you on the last trading day of the option, we may, at our discretion (but are not required to), take action.

We may place a market order to sell the long option position at or before, in our discretion, market close on the last trading day of the expiring option. We may instruct the OCC not to exercise valuable options. Or we may exercise valuable option contracts for your Account, and in the absence of instructions from you, new positions we create in this way may be closed out at the opening of the next business day. In the case of long put options, we will only exercise those options if we are able to lend the securities to you for delivery, in which case you may be charged a fee that may change on a daily basis. By allowing us to exercise your put option on the last day of trading, you agree to pay any fees imposed for borrowing shares. An exercise of a put option will be considered a short sale of the underlying security. We may exercise for cash settlement long index option contracts that are any amount in-the-money. If you do not notify us to exercise a valuable option contract by the prescribed time and the right to exercise expires, you agree to waive, and to release us and our officers, employees, and agents from, any and all claims of damage or loss, then or at a later time sustained, as a result of an option contract not being exercised.

**11. Option Contract Assignments.** We allocate option contract assignment notices among customer short positions according to an automated procedure. This procedure randomly selects from among all customer short option positions (including positions established on the date of option contract assignment) those contracts that are subject to exercise. All American-style short option positions are liable for option contract assignment at any time. You acknowledge that the option contract assignment process may result in multiple partial option contract assignments and/or multiple transactions to fulfill a single option contract assignment, and a separate commission charge will apply to each partial option contract assignment or transaction needed to complete an option contract assignment.

At your request, we will furnish you with a more detailed description of the automated option contract assignment process.

**12. Position and Exercise Limits—Rules.** You agree that you will not, acting either individually or together with others, directly or indirectly:

- Hold or control any number of option contracts that exceed the position limitations, or
- Exercise a long position in any option contract that exceeds the exercise limitations, all as set from time to time by the exchanges or markets where such option contracts are traded.

We may, at our discretion and without prior notice, impose house option position limitations. All option trading activity in your Account will be conducted according to the constitutions, rules, regulations, and usages of the Options Clearing Corporation, the Financial Industry Regulatory Authority, and any applicable exchange and/or regulatory agency.

**13. Account Agreement.** All option transactions will be conducted through your Account and are subject to the Account Agreement between you and Schwab Singapore. As used here, "Account Agreement" means: the terms and conditions stated in this Option Agreement; the applicable Schwab One® Singapore Account Application; the applicable Schwab One Singapore Account Agreement; the Margin and Short Account Agreement; the Disclosure of Credit Terms and Policies; and any other written agreements between you and Schwab Singapore, all as amended from time to time.

# Certification of Trust

- This Certification sets forth the Trustees' representations and warranties regarding their authority under the Trust.
- Please retain for your files.

By signing the Application, each Trustee represents and warrants that Charles Schwab Singapore Pte. Ltd. ("Schwab Singapore") is authorised, as a brokerage firm, to open and maintain the Account on behalf of the Trust identified in this Application (the "Trust") in accordance with the account agreements applicable to this Account, including without limitation the authority to accept, hold, and deliver assets belonging to the Trust, and to accept orders and other instructions relating to the Trust from the Trustees. The Trustees represent, warrant, and certify that the Trust expressly grants them the power to buy, sell (including short sales), exchange, convert, tender, redeem, and withdraw assets (including delivery of assets to and from the Account and delivery of assets to a Trustee personally), and, if the Margin Borrowing feature is not declined, to trade securities on margin or otherwise (including the purchase and/or sale of option contracts) for and at the risk of the Trust and to grant authority to a brokerage firm, acting as principal or otherwise, to pledge, repledge, hypothecate, or rehypothecate assets of the Trust. **The Trustees agree to decline the Margin Borrowing feature if such authorisations for borrowing are not contained in the Trust. Note: Additional documents are required to add someone as a Power of Attorney. In order to trade options in a Trust Account through Schwab Singapore, the Trust must meet certain financial requirements, and the Trustee(s) must meet certain investment experience requirements and complete a separate Add Options Trading and Margin to Your Account application.**

The Trustee(s) represents, warrants, and certifies that either (1) the Trust expressly authorises that each Trustee, if more than one, is authorised to act individually, independently, and without the consent of the other Trustees; or (2) the Trustees (if more than one) have consented to each Trustee acting individually, independently, and without the consent of the other Trustees with respect to the Account and that such delegation of authority is expressly authorised by the Trust and applicable law. The Trustees agree that any notice sent to one Trustee will constitute notice to all Trustees. Schwab Singapore, in its sole discretion and for its sole protection, may require the written consent of any or all Trustees prior to acting upon the instructions of any Trustee.

The Trustees represent, warrant, and certify that neither they nor the Trust impose any obligation upon Schwab Singapore for determining the purpose or propriety (i) of any instructions received from any Trustee or (ii) of payments or deliveries to or among Trustees.

By signing this Application, each Trustee further represents, warrants, and certifies that there are no other currently acting Trustee(s) of the Trust other than those signing below. Should only one person execute this Application, it is a representation that the signer is the sole current acting Trustee. Finally, the Trustees represent, warrant, and certify that the Trust has not been revoked, modified, or amended in any manner, which would cause the representations contained in this Certification to be incorrect. Each Trustee agrees to notify Schwab Singapore immediately in writing of any change that would cause this Certification to become incorrect or incomplete.

Each Trustee hereby, jointly and severally, in both personal and representative capacities, agrees to indemnify Schwab Singapore, its affiliates, officers, directors, employees, and agents from, and to hold such persons harmless against, any claims, judgments, surcharges, settlements, or other liabilities or costs of defense or settlement (including investigative and attorneys' fees) arising out of or related to any act or omission to act by any Trustee with respect to the Account.

The representations and obligations stated in this Certification will survive the termination of the Account.

## DISCLOSURE OF CREDIT TERMS AND POLICIES

The following Disclosure of Credit Terms and Policies is required by the Securities and Exchange Commission and is part of your Schwab One® Singapore Account Agreement. It describes the terms under which we extend credit and charge interest and how your obligations are secured by property in your Schwab One Singapore Account.

**1. Interest Charges.** We will charge interest on a daily basis on the credit we extend to you. The daily interest charges are calculated by multiplying your “daily adjusted debit balance” by the “daily margin interest rate.” Generally speaking, your daily adjusted debit balance is the actual settled debit balance in your Margin and Short Account, increased by the value of securities held short and reduced by the amount of any settled credit balance carried in your Cash Account.

We calculate your daily adjusted debit balance each day by adjusting your previous day’s balance by any debits and credits to your Account and by changes in the value of short positions. If your daily adjusted debit balance is reduced because you deposit a check or other item that is later returned to us unpaid, we may adjust your Account to reflect interest charges you have incurred.

We reserve the right to charge interest on debit balances in the Cash Account. Periodically, we will send you a comprehensive statement showing the activity in your Account, including applicable interest charges, interest rates, and adjusted daily debit balances.

**2. Daily Margin Interest Rate.** The “daily margin interest rate” is based on a 360-day year. It is calculated for each day by dividing the applicable margin interest rate by 360. Note that the use of a 360-day year results in a higher effective rate of interest than if a year of 365 days were used. The applicable margin interest rate is set at an offset from Schwab Singapore’s Base Rate according to a tiered interest schedule based on your margin debit balance. We set the Base Rate at our discretion with reference to commercially recognised interest rates, industry conditions relating to the extension of margin credit, and general credit market conditions. To obtain the interest schedule, refer to your Account Agreement, or call us at (+65) 6536-3922 (Singapore Support) or +1-415-667-8400 (U.S. Support). The current Base Rate is also available by calling us.

Your margin interest rate will be adjusted automatically and without notice to reflect any change in the Base Rate. If your interest rate increases for any reason other than a change in the Base Rate, we will give you written notice at least 30 days prior to that change.

**3. Compounding Interest Charges.** We compound interest on a daily basis. Interest charges will accrue to your Account each day. We will include the charges in the next day’s opening debit balance and charge interest accordingly. The interest rates described in Section 2 above do not reflect compounding of unpaid interest charges; the effective interest rate, taking into effect such compounding, will be higher.

**4. Initial Margin Requirements.** The Federal Reserve Board and various stock exchanges determine margin loan rules and regulations. We will not extend credit unless your equity in the Securities and Other Property in your Margin and Short Account is at least \$2,000, or such greater amount as may be required by applicable rules or regulations or by our house policies.

The maximum amount we currently may loan for common stock (equity) securities is 50% of the value of marginable securities purchased in your Margin and Short Account; different requirements apply to nonequity securities, such as bonds or options. If the market value of stock held as collateral increases after you have met the initial margin requirements, your available credit may increase proportionately. Conversely, if the market value decreases, your available credit may proportionately decrease.

Initial margin requirements may change without prior notice. We may impose anytime and without prior notice more stringent requirements

on positions that in our sole discretion involve higher levels of risk; for example, higher limits may apply for thinly traded, speculative, or volatile securities, or for concentrated positions of securities.

You may purchase only certain securities on margin or use them as collateral in your Margin and Short Account. Most stocks traded on national securities exchanges, and some over-the-counter (OTC) securities, are marginable. At our discretion, we reserve the right not to extend credit on any security.

If the market value of a security drops below Schwab Singapore’s per-share minimum, the margin maintenance requirement will be 100%. Please contact us for Schwab Singapore’s current margin requirements.

**5. Margin Maintenance Requirements.** You must maintain a minimum amount of equity in your Account to collateralise your outstanding loans and other obligations. Margin maintenance requirements are set:

- By the rules and regulations of FINRA and other regulatory agencies under whose jurisdiction we are subject; **and**
- According to our sole discretion and judgment. Margin maintenance requirements may change without prior notice.

We may issue a “margin call” (that is, a notification to deposit additional collateral) if your Account equity falls below the margin maintenance requirement. This can happen for various reasons. The most common reason is a decrease in the value of long securities held as collateral or an increase in the value of securities held short.

As a general guideline and when it is practicable to do so, we may (but are not required to) issue a margin call when the equity in your Margin and Short Account falls below Schwab Singapore’s minimum maintenance requirement. The amount of additional collateral we require usually is an amount sufficient to raise your equity to Schwab Singapore’s minimum maintenance requirement.

Please contact us at (+65) 6536-3922 (Singapore Support) or +1-415-667-8400 (U.S. Support) for Schwab Singapore’s current margin requirements.

We retain absolute discretion to determine whether, when, and in what amounts we will require additional collateral. In some situations, we may find it necessary to require a higher level of equity in your Account. For example, we may require additional collateral if an Account contains:

- Only one security or a large concentration of one or more securities; **or**
- Low-priced, thinly traded, or volatile securities; **or**
- Low minimum liquidating account net worth; **or if**
- Some of your collateral is or becomes restricted or non-negotiable or non-marginable.

We also may consider market conditions and your financial resources.

**6. Short Option Positions.** If you hold put or call option contracts deemed by us to be uncovered, your Account is subject to both initial margin and margin maintenance requirements. For more detailed information on how Schwab Singapore calculates these equity requirements, contact us at 1-800-515-2157.

**7. Short Sales.** A short sale is a margin transaction subject to initial margin and margin maintenance requirements. In most cases, the initial equity requirement for the short sale of an equity security is 150% of the sales proceeds of the security, plus commissions. Proceeds obtained from the short sale will be applied against the initial margin equity requirement and posted as collateral with the lender of the securities. Equity securities selling for \$5.00 or less and odd lots usually may not be sold short. Different requirements apply to nonequity securities. In addition to margin, you may be charged fees for borrowing securities that are delivered in connection with the short sale.

Generally, current margin maintenance rules require you to maintain equity in your Account equal to at least Schwab Singapore's minimum maintenance requirement for the market value of each stock "short" in your Account. Please contact your Investment Advisor for Schwab Singapore's current margin requirements. The value of securities held short in your Account is "marked to the market" each day.

Increases in the market value will increase your daily adjusted debit balance (on which interest is charged) by the same amount, while decreases in the market value will decrease your daily adjusted debit balance by the same amount.

As a result of increases in your daily adjusted debit balance, the collateral held in your Account may become insufficient. Short sale proceeds are part of the collateral securing our loan of the security to you, and you may not withdraw these proceeds from your Account. You are liable for all dividends paid on securities you have borrowed for the purpose of short sales.

For our protection, we may, at our discretion and without notice, immediately cover your short security positions by purchasing for your Account securities to replace those sold short.

We may cover your position because:

- The lender of the securities recalls them;
- We anticipate an inability to borrow or reborrow these securities; or
- For any other reason.

If several Accounts hold short positions in a security and not all of the positions are to be covered, we may select the positions to be covered on a random basis.

In covering a short position, we may, at our discretion, purchase securities for your Account either on a normal settlement, or next-day or cash settlement basis. The price of securities purchased on a next-day or cash settlement basis is usually higher than that of those purchased on a normal settlement basis. The price of covering the short position may be higher than the price at which you sold short; therefore, you may sustain a loss on that transaction.

You are liable for commissions and other costs of short sale transactions and for any debit balance that remains after we cover or close out a short position.

When we borrow securities for your Account, we are obligated to return the securities to the lender on demand. If you are unable to cover a short position (either through delivery of the security or through our "buying in" your position) in enough time for us to deliver the security to its lender, you agree to pay us for the losses we sustain as a result of the failure to deliver. For instance, if you have a short position in a security that is subject to a tender offer and you are unable to cover the position in time for us to deliver the security to its lender, we may hold you responsible for the economic value of the tender offer.

**8. Liens and Liquidation.** At our election, all debit balances in your Account, including those resulting from extensions of margin credit, will be immediately due and payable. In the Account Agreement, you granted us a lien on all Securities and Other Property held or maintained for any purpose, including safekeeping, in your Schwab Singapore Account or in any other present or future non-retirement Schwab Singapore Account in which you have an interest, regardless of whether there are other Account Holders on any of the accounts. This lien secures the full performance of obligations owed to us by you or any Additional Account Holder of your Schwab One® Singapore Account, whether those obligations are incurred in connection with your Schwab One Singapore Account or any other non-retirement account with us, and extends to property that may not be acceptable as margin collateral under Federal Reserve Board regulations.

If your equity falls below the applicable maintenance requirement, we may (but are not obligated to) notify you by mail, telegram, telephone, or electronic or other means of a margin call for an amount sufficient

to bring your Account up to the equity level we require. Margin calls require prompt delivery according to our instructions of either additional funds or acceptable securities. Failure to make a required deposit may result in the liquidation of part or all of the Securities and Other Property in your Account.

**Notwithstanding any oral communications between you and us, we reserve the right to liquidate anytime if the equity in your Account falls below Schwab Singapore's minimum requirements.**

You will continue to be held liable on demand for any debit balance remaining after liquidation of assets in your Account. It may not be possible to notify you of a margin call or allow any time to deposit additional collateral. **Therefore, we reserve the right to initiate immediate liquidation procedures without notice.**

You are responsible for monitoring the status of your Account, for ensuring that sufficient collateral is maintained in the Account, and for liquidating positions to minimise losses. Any action we take or do not take to issue a margin call or liquidate collateral is undertaken solely to protect our interest as a creditor. You agree that we do not have any responsibility to issue a margin call, to liquidate positions in your Account, or to select the securities to be liquidated or the manner or timing of the liquidation in order to prevent or minimise losses to you.

**9. Verification.** I authorise Schwab Singapore to inquire from any source, including a consumer reporting agency, as to my identity (as required by federal law), creditworthiness, and ongoing eligibility for the Account (and that of my spouse, if I live in a community-property state) at account opening, at any time throughout the life of the Account, and thereafter for debt collection or investigative purposes.

## MARGIN AND SHORT ACCOUNT AGREEMENT TERMS AND CONDITIONS

When you buy securities on margin, or enter into short sales or short options, you are borrowing money from Schwab Singapore for part of your transactions. All securities and other assets in your Schwab One Singapore Accounts are pledged as collateral to secure this loan. These margin transactions are riskier and involve the possibility of greater loss than transactions in which you are not borrowing money. If the value of your securities and other assets falls, you may be required to deposit more assets (a "margin call") to secure your loan or your securities, and other assets may be sold to pay down or pay off your loan without prior notice and at a loss or at lower prices than under other circumstances.

You agree to carefully consider your own financial condition, tolerance for risk, and investment objectives, as well as market conditions, before you decide to use margin credit or short account features. By applying for a Margin and Short Account and/or placing an order on margin, you acknowledge that you have carefully considered all of these factors, along with the terms of the margin agreement, and have decided that margin financing is appropriate for you.

**1. Payment for Transactions.** You agree that you are responsible for paying for all transactions you make and all authorised transactions in your Margin and Short Account. When you purchase securities on margin, you agree to deposit the required initial equity by the settlement date and to maintain your equity at the required levels. However, Schwab Singapore reserves the right to liquidate at any time (including on or before settlement date) depending on market conditions. In addition, you agree to pay any debit remaining in your Account if your positions are liquidated to satisfy a margin call. We may extend credit to you according to applicable laws and regulations and our Disclosure of Credit Terms and Policies. You agree to use this credit primarily for business and investment purposes.

**2. Disclosure of Credit Terms and Policies.** All transactions in the Margin and Short Account are subject to our Disclosure of Credit Terms and Policies. You agree not to enter an order in your Margin and Short Account until you have read and understood the Disclosure of Credit Terms and Policies.

**3. Maintenance of Collateral.** You agree to maintain in your Margin and Short Account collateral of the type and amount required by:

- Applicable Exchange rules and federal regulations,
- Our Disclosure of Credit Terms and Policies, **or**
- Schwab Singapore, at our discretion.

**4. Liquidation.** Whenever it is necessary for our protection or to satisfy a margin call, deficiency, debit, or other obligation owed us, we may (but are not required to) sell, assign, and deliver all or any part of the Securities and Other Property securing your obligations, or close any or all transactions in your Schwab One® Singapore Account.

It is our policy to attempt to contact you, when practicable, before taking any action described in this section. However, we reserve the right to take any such action without prior notice or demand for additional collateral, and free of any right of redemption. Any prior demand, call, or notice will not be considered a waiver of our right to sell or buy without demand, call, or notice.

We may choose which Securities or Other Property to buy or sell, which transactions to close, and the sequence and timing of liquidation. We may take such actions on whatever exchange or market and in whatever manner (including public auction or private sale) that we choose in the exercise of our business judgment. You agree not to hold us liable for the choice of which Securities or Other Property to buy or sell, or of which transactions to close, or for the timing or manner of the liquidation.

We may transfer Securities and Other Property from any brokerage account in which you have an interest to any other brokerage account in which you have an interest, regardless of whether there are other Account Holders on either account, if we determine that your obligations are not adequately secured or to satisfy a margin deficiency or other obligation. You agree to pay on demand any account deficiencies after liquidation, whether liquidation is complete or partial.

We are entitled to exercise the rights described in this section in our sole discretion, including whenever any of the following occurs:

- The equity level in your Account falls below required minimums;
- A petition of bankruptcy or for the appointment of a receiver is filed by or against you;
- An attachment is levied against any of your brokerage accounts with us;
- You die or become incapacitated or incompetent; **or**
- Your Schwab Singapore Account is closed.

**5. Short Sales.** You agree to designate a sell order as a short sale if, at the time you place the order, you either do not own the security being sold or are unable to deliver the security in a timely manner. You agree that short sale transactions are subject to certain regulatory rules and cannot be executed under certain market conditions. In addition, depending on market conditions, Schwab Singapore cannot guarantee that it will have shares available to facilitate a short sale. Schwab Singapore may charge you a fee for borrowing securities that may

change daily. Before you submit a short sale order, you will be notified of the current cost of borrowing those shares. By submitting the order, you will have agreed to pay the charge for borrowing the shares, as it may change on a daily basis for as long as you hold the short position.

You agree that we may, **at our discretion and without notice**, “buy in” securities to cover any short security position in your Account at your expense. We may take this action on either a normal settlement, cash, or next-day settlement basis.

If you are unable to cover a short security position (either through delivery of the security or through our “buying-in” the security) in enough time so we can deliver the security to its lender (to whom we’re obligated), you agree to reimburse us for the losses we sustain as a result of your failure to deliver the security.

**6. Interest on Debit Balances.** We will charge interest on your debit balance according to our Disclosure of Credit Terms and Policies. We post accrued but unpaid interest charges to your Account each month. We compound the interest as described in our Disclosure of Credit Terms and Policies.

**7. Pledge of Securities and Other Property.** We may pledge, repledge, hypothecate, or rehypothecate, either separately or together with Securities of other customers, all Securities and Other Property that you, now or in the future, carry, hold, or maintain in your Margin and Short Account. The value of the Securities and Other Property we pledge or repledge may be greater than the amount you owe us, and we are not obligated to retain in our possession and control for delivery the same amount of similar Securities and Other Property.

**8. Loan Consent.** You agree that Securities and Other Property held in your margin account, now or in the future, may be borrowed (either separately or together with the property of others) by us (acting as principal) or by others. You agree that Schwab Singapore may receive and retain certain benefits (including, but not limited to, interest on collateral posted for such loans) to which you will not be entitled. You acknowledge that in certain circumstances, such borrowings could limit your ability to exercise voting rights or receive dividends, in whole or in part, with respect to the Securities and Other Property lent. You understand that for Securities and Other Property that are lent by Schwab Singapore, the dividends paid on such Securities and Other Property will go to the borrower. No compensation or other reimbursements will be due to you in connection with such borrowings. However, if you are allocated a substitute payment in lieu of dividends, you understand that such a payment may not be entitled to the same tax treatment as may have been applied to the receipt of a dividend. You agree that Schwab Singapore is not required to compensate you for any differential tax treatment between dividends and payments in lieu of dividends. Schwab Singapore may allocate payments in lieu of dividends by any mechanism permitted by law, including by using a lottery allocation system.

**9. Account Agreement.** All transactions in your Margin and Short Account are subject to the Schwab One® Singapore Account Agreement in its entirety and any other written agreements between you and Schwab Singapore, all as amended from time to time.

# Margin Disclosure Statement

www.schwab.com.sg | (+65) 6536-3922 (Singapore Support) | +1-415-667-8400 (U.S. Support)

- This is important information regarding margin borrowing, if you have requested the margin feature on your brokerage account.
- Please retain this document for your files.
- When using margin, please keep these important rules and conditions in mind.
- A complete list of terms and conditions pertaining to margin trading and short selling, including credit terms and policies, can be found in the Schwab One® Singapore Account Agreement (the “Account Agreement”). The Account Agreement will be provided to you after account opening, or you can access it at any time on our website or by calling us. Please read this important document before opening a margin account.
- For questions regarding margin borrowing, please contact us at the numbers listed above.

When considering a margin loan, you should determine how the use of margin fits your own investment philosophy. It is important that you fully understand the risks, rules, and requirements involved in trading securities on margin.

The following paragraphs highlight some of the critical aspects of margin trading:

**Margin trading increases your level of market risk.** Margin trading increases your buying power, allowing you to purchase a greater amount of securities with your investing dollar. Therefore, your exposure to market volatility increases—a declining market could result in even greater losses. *A decline in the value of your securities that you purchase on margin may require you to provide additional funds to Schwab Singapore in order to avoid the forced sale of those securities or other securities in your account.*

**Your downside is not limited to the collateral value in your margin account.** When you buy securities on margin, you are borrowing money from Schwab Singapore for part of your transactions. Securities and other assets in your Schwab Singapore account(s) are pledged as collateral to secure this loan. These margin transactions are riskier and involve the possibility of greater loss than transactions where you are not borrowing money. If the securities in your account decline in value, so does the value of the collateral supporting your loan. When the value of the collateral falls below the maintenance margin requirements, or Schwab Singapore’s higher “house” requirements, Schwab Singapore can move to protect its position. In order to cover margin deficiencies, Schwab Singapore may issue you a margin call—a request for additional cash—or sell securities from your account. If a sale does not cover the deficiency, you will be responsible for any shortfall.

**Schwab Singapore may initiate the sale of any securities in your account, without contacting you, to meet a margin call.** Schwab Singapore will attempt to involve you in the case of margin deficiency; however, market conditions may require the firm to quickly sell any of your securities without your consent. Because the securities are collateral for the margin loan, Schwab Singapore has the right to decide which security to sell in order to protect its interests. Even if Schwab Singapore has contacted you and provided a specific date by which you can meet a margin call, the firm can still take necessary steps to protect its financial interests, including immediately selling the securities without prior notice to you.

Schwab Singapore’s “house” initial and maintenance margin requirements may exceed those established by the Federal Reserve Board and/or the Financial Industry Regulatory Authority, Inc. Please call Schwab Singapore for current margin requirements.

Schwab Singapore may change its initial margin requirements at any time and without prior notice. We may also impose anytime and without prior notice more stringent requirements on positions that in our sole discretion involve higher levels of risk; for example, higher

limits may apply for thinly traded, speculative, or volatile securities, or concentrated positions of securities.

**Schwab Singapore may increase its “house” maintenance margin requirements at any time and is not required to provide you with advance written notice.** Changes in Schwab Singapore’s policy regarding “house” maintenance margin requirements often take effect immediately and may result in the issuance of a maintenance margin call. Your failure to satisfy the call may cause Schwab Singapore to liquidate or sell securities in your account.

Schwab Singapore retains absolute discretion to determine whether, when, and in what amounts we will require additional collateral. For example, we may require additional collateral if an account contains only one security or a large concentration of one or more securities; or low-priced, thinly traded, or volatile securities; or if some of your collateral is or becomes restricted or non-negotiable or non-marginable. We may also consider market conditions, your financial resources, or other factors deemed by us to be relevant given the circumstances at the time.

**You are not entitled to an extension of time on a margin call.** While an extension of time to meet margin requirements may be available to customers under certain conditions, a customer does not have a right to the extension.

Some accounts that carry a margin loan balance and hold dividend-paying securities may receive a “substitute income payment in lieu of a dividend” (PIL). This payment may be taxable as ordinary income. Taxable accounts that receive a PIL instead of a qualified dividend may also receive a supplemental credit from Schwab Singapore. This will be identified on customer statements as a “Schwab substitute income credit.” However, when Schwab Singapore can identify that a dividend is nonqualified, we will not credit your account with this additional payment.

- This credit is NOT “payment in lieu,” and is unrelated to any payment from either the security issuer or the borrower.
- It is a discretionary credit from Schwab Singapore, which may be discontinued in the future with or without notice.\*
- It may be subject to tax at your ordinary income tax rate. Please consult your tax advisor about your specific tax situation.
- Because individual tax situations differ, Schwab Singapore cannot precisely calculate the additional tax costs a client might incur. Therefore, we do not intend, nor should clients expect, for this payment to be an exact reimbursement of any excess tax cost.

\*Please refer to the “Loan Consent” section of your Account Agreement, which states that no compensation is due in connection with such loans and that Schwab Singapore “is not required to compensate you for any differential tax treatment between dividends and payments in lieu of dividends.”
